**Compassionate Health Center receives grant.**

We say, “Power to the plate”, the breast cancer awareness license plate that is. You see these license plates on cars all around our community. If you have one on your car we thank you. The proceeds from the sale of these plates enable the Indiana Breast Cancer Awareness Trust (IBCAT) to increase the awareness and improve access to breast cancer screening and diagnosis throughout Indiana.

The Compassionate Health Center is pleased to announce that we are a gracious recipient of an IBCAT mini-grant. As a health clinic for the uninsured we have many patients who have not had access to preventative care. This grant will allow us to partner with Woodlawn Hospital to provide screening mammograms for our patients. Thank you Indiana Breast Cancer Awareness Trust! Go Pink! Go Plate! Save Lives!
